MEETING MINUTES

Objective:
- To get a detail idea about aggregate function and hands on aggregate functions in mysql workbench, and discussion 50 & 9 .

Agenda:
- To get a proper hands on Aggregate functions.
- A Comprehensive Exercise on Grouping, Filtering, and Analyzing Data in MySQL.
- Aggregate Functions - hr database in mysql workbench.
- discussion about join functions.

Key takeaways:
- Understanding Aggregate Functions gained a detailed understanding of aggregate functions in MySQL Workbench, including practical applications and hands-on exercises.
- Learned how to utilize aggregate functions such as SUM, AVG, COUNT, MIN, and MAX to perform calculations on grouped data.
- Comprehensive Data Analysis The meeting featured a comprehensive exercise on grouping, filtering, and analyzing data in MySQL.
- Discussion on Join Functions also included a discussion on join functions, understanding of how to combine data from multiple tables efficiently. By exploring different types of joins such as INNER JOIN, LEFT JOIN, and RIGHT JOIN .
